

In 1967 when **Giacomo Abbate** started Regency one of his primary dreams was to successfully develop the growth of this company in the manufacturing of hotel and restaurant equipment. Over forty years later, Regency has developed a very unique reputation for the highest quality and workmanship in the industry.

One of the major accomplishments to the many prominent customers he obtained was the ability to invent new concepts and ideas into manufacturing very elegant customized products while keeping all the work here in America. Therefore, Regency is well known for its versatility and vast capabilities.

Now a third generation company his family is following in his footsteps carrying on a dream that started in a basement forty years ago.

The factory is still located in Downtown Brooklyn but the product is shipped all over the world Domestically and Internationally. The pride continues with his children, grandchildren

and staff who take great gratification in all of our new ventures and products.

Made in the USA is very important to us and the future of this Country that is why we continue to expand our product line and keep our employee's working.

Regency is capable of short run oval, round and rectangular stampings from 20 gauge to 14 gauge stainless steel material.
